### ABOUT ME

Fullstack Developer with a stronger focus on Frontend development using React. I have 2 years of experience as a developer and over 12 years of experience in the gastronomic sector.

My goal is not only to create innovative technological solutions but also to grow professionally and personally. I am ready to contribute to the success of an innovative team and to demonstrate all that I have to offer.

### PROFESSIONAL EXPERIENCE

- **Full Stack Developer / Freelance** Ene. 2024 - actualidad.

Full Stack Developer with experience in **developing web and mobile applications**. My versatile approach allows me to work on all stages of the software development lifecycle, from design and implementation to optimization and maintenance.

**Featured Skills:** React.js | Express.js | Typescript | NestJS | PostgreSQL

- **Waiter/ La Payuca** Jul. 2022 - Dic. 2023  
General tasks: Mise en place for the respective shift, **customer service, sales and customer assistance, handling payments**, including various payment methods.
- **Waiter/ OL'DAYS Coffee** Jun. 2021 - Jul. 2022  
General tasks: Mise en place for the respective shift, **customer**

service, sales and customer assistance, handling payments, including various payment methods

**NOTE:** I have over 12 years of experience in the gastronomic sector. I decided not to delve further into this experience, as my profile is currently focused on the technology sector. In favor of my past experience, I acquired a set of soft skills that allow me to communicate effectively, handle work under pressure, interact effectively with clients, adapt to any work environment as well as any team, and solve problems.

## PROJECTS

- **Backend Developer / E-Commerce Platform** **Feb. 2024 - May. 2024**

**Project Description:** Development of a robust and secure platform for online shopping.

### **Responsibilities:**

- Implementación de **operaciones CRUD** para la gestión eficiente de datos.
- Garantizar la seguridad de datos y transacciones mediante encriptación con **bcrypt**.
- Autenticación de usuarios con **JSON Web Tokens (JWT)**.
- Diseño y desarrollo de una estructura de base de datos escalable con **PostgreSQL y TypeORM**.

### **Key Achievements:**

- Created a functional and secure platform providing a personalized shopping experience.
- Solved security and efficiency challenges with creative solutions..

### **Technologies Used:**

Backend: NestJS, Express.js, Docker,  
Swagger.Base de Datos: PostgreSQL,  
TypeORM.

Despliegue: <https://ecommerce-m4.onrender.com/api> (slow to load but is active)

**NOTE:** This is my second-to-last project. I am currently developing a job portal application. For more details about my work, you can visit my repository:
