Professional Summary

I am a **Full Stack Developer** with a strong focus on Frontend based in Buenos Aires. With over two years of experience in **React.js** and **CSS**, complemented by skills in **Node.js**, **Express.js**, and **PostgreSQL**. Expert in creating attractive and functional user interfaces that bring digital brands and products to life.

My passion for **Frontend** is reflected in every project, though I also have experience in **Backend** development, enabling me to provide comprehensive and robust solutions in **Full Stack** environments. I am seeking a role where I can showcase my **Frontend** skills while contributing my experience to broader projects.

Professional Experience

- **Full Stack Developer/ Freelance** **january 2024 - present**

Experience in end-to-end development of web and mobile applications using technologies such as **React.js**, **Express.js**, and **PostgreSQL**. Focus on creating intuitive and functional interfaces. Committed to continuous improvement and adopting best practices in security and efficiency. Prepared to make significant contributions in freelance environments, tackling projects that require innovative and robust data management solutions.

- **Waiter / La Payuca** **june 2022 - december 2023**

Customer service and payment handling, developing effective communication skills and problem-solving under pressure.

- **Waiter / La Payuca** **june 2014 - january 2015**

Customer service and payment management, strengthening adaptability and teamwork in a dynamic environment.

Technical Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Sass, Tailwind CSS

Backend: Node.js, Express.js, NestJS, PostgreSQL, MongoDB, Docker

Tools: Git, GitHub, Postman, Swagger, Jira, SCRUM

Projects

- **Ease Hire - development stage** **july 2024 - present**

This product addresses the challenge of finding reliable labor for everyday tasks in Argentina. It facilitates connection between people with specific needs and those capable of fulfilling them, providing security for both parties. If you've used Facebook Marketplace to find a handyman, you'll understand its purpose.

Technologies Used: NestJS, Next.js, TypeScript, PostgreSQL, CSS.
