

Sebastian Perez | Frontend Developer

Argentina, BS AS | sebastian.perez.jobs@gmail.com / <https://github.com/SebaPerez90>
<https://www.linkedin.com/in/sebaperez90> | <https://sebaperez-portfolio.vercel.app>

Professional Summary:

Frontend Developer based in Buenos Aires with over two years of experience in **React.js**, **Tailwind**, **TypeScript**, **JavaScript**, and **CSS**, complemented by **backend** skills including **Node.js**, **Express.js**, **PostgreSQL**, **AWS Cloud**, and **Cloudinary**. Expert in creating 100% attractive and functional user interfaces that bring brands and digital products to life.

Passionate about **Frontend** development, with a keen attention to detail and experience in robust **Backend** solutions, I am seeking new **full-time** job opportunities.

Technical Skills:

- Frontend: **React.js**, **Next.js**, **JavaScript**, **TypeScript**, **HTML**, **CSS**, **Tailwind**, **Javascript**
- Backend: **Node.js**, **Express.js**, **NestJS**, **PostgreSQL**, **MongoDB**, **Docker**, **Cloudinary**
- Tools: **Git**, **GitHub**, **Postman**, **Swagger**, **Jira**, **SCRUM**, **Insomnia**, **AWS**

Projects:

Ease Hire (development stage)

Julio 2024 - present

EaseHire is an informal job portal that facilitates connections between people with specific needs and those qualified to meet them, offering security for both parties. This platform stands out by reducing the bureaucracy in the process of searching and hiring informal services, which is a common problem in Argentina.

Responsibilities:

- Design and develop the application architecture using **NestJS** and **Next.js**.
- Implement search and connection functionalities between users with specific needs and service providers.
- Integrate user authentication and security using **JWT** and **bcrypt**.
- Optimize database performance and efficiency with **PostgreSQL**.

Features:

- Hire services from the platform, as well as offer services in the various available categories..
- Search by location, skills, and availability.
- Ratings and reviews for providers.

- Profile customization to showcase skills and experience.
- Live messaging and notifications.
- Online payment gateway.

Technology Stack: **NestJS, Next.js, TypeScript, PostgreSQL, CSS, Cloudinary.**
